

Gas ranges

The 'Settecento Baron' series

Exceptional levels of reliability, hygiene and safety, all compliant with the strictest European regulations. Modern technology combined with the strength of AISI 304 18/10 stainless steel, with a Scotch Brite finish. Sober and elegant lines are the result of aesthetic research focusing on modern criteria in terms of ergonomics and functionality. This is the 'Settecento Baron' series: a professional kitchen, just 70 centimetres deep, that can be manufactured according to your exact requirements, without making any sacrifices and without any limits in terms of its composition. All of this plus the **CE** mark. Equipment designed and built to guarantee total safety as well as perfect hygiene with the utmost in energy efficiency.

*The **REMOVABLE CONTAINER**, made entirely from stainless steel, is an excellent solution for the collection of dirt that accumulates below the enamelled grills during cooking. This optional accessory simplifies cleaning of the cooking surface which can be easily extracted from the cooker and is small enough to be put in the dishwasher.*

***WATER BATH-TOP** models feature a special top with a liquids drainage hole. An optional kit is available for connection to a ground drain designed to best meet user requirements.*

*The **WIDE 8 kW OVEN** makes it possible to cook larger batches of food due to its wide design.*

Technical/functional characteristics

The range comprises 4 models with 2, 4, 6 or 8 burners, available in top-mounted, unit, and with gas or electric oven versions. Other specifications.

Cooking surface

- Surface entirely pressed and cut from a single thick sheet of AISI 304 18/10 steel;
- long-stem cast iron enamelled grills for easy movement of pots and pans from one burner to another;
- high-power cast iron burners (3.5, 5.5 7 kW);
- safety valve and progressive power regulation system for controlled, stabilised flame combustion;
- removable instrument panel for perfect access, pressed and shaped to avoid the accumulation of dirt;
- ergonomic fitted and inclined knobs;
- various connection possibilities.

Gas oven

- Thermally-insulated stainless steel oven (530x580x300mm) fitted with 4 anti-tilt guides for 1/1 and 2/1 reduced Gastronorm containers;
- thick stainless steel bottom for efficient heat distribution;
- door and internal door made from stainless steel, fully insulated and mounted on self-balancing hinges;
- ergonomic full length handle with thermal insulation;
- under-base burner with stabilised flame;
- pilot burner with manual piezo-electric ignition;
- automatic thermocouple gas cut-off safety valve;
- thermostat temperature control from 30°C to 90°C;
- 2" height adjustable STAINLESS STEEL feet.

Electric oven

- Stainless steel heating elements located both overhead and below the oven base plate;
- thermostat-controlled oven temperature;
- operation indicator light;
- "Equipment under tension" warning light.
