

FRYMASTER PMJ145G-2SD

GAS FRYER—25 Litre (2 x 12.5 Litre)

The split pot PMJ145G-2SD has a minimum 20 litres and maximum 25 litres shortening capacity. The total frying area is 356 x 381 mm at shortening level. The exclusive 1° action thermostat anticipates rapid rate of temperature rise, reducing temperature overshoot, extending shortening life and producing a more uniformly-cooked product. Centreline thermostat mounting permits quick sensing (7 to 10 seconds) of cold food placed in either basket. Master Jet burner has no burner tube radiants to burn out. No burner cleaning or air shutter adjustment is required.

The open stainless steel frypot has a large heat transfer area to fry more product per load. The open -pot design has no hard-to-clean tubes. Every inch of the frypot and cold zone can be cleaned and wiped down by hand.

STANDARD FEATURES

- Open split-pot design, no tubes, easy to clean
- Durable centreline thermostat
- 7-to-10 second response to loads, 1° anticipating action, reduced temperature overshoot
- Deep cold zone, 32 mm IPS ball-type drain valve
- Master Jet burner, no burner tube radiants to burn out, no cleaning or adjusting air shutters
- Rounded corners for easy-to-clean “Euro” look
- Frypot cover
